Moog Valve and Pump Configuration Software

Foreword

The document was written and checked to the best of our ability.

	**IMPORTANT**: No part of this document may be copied, duplicated, reproduced, stored in a data storage system, translated into different language, or transmitted by data communication system, without the consent of Moog

About Moog

Moog's Industrial Group designs and manufactures high performance motion control solutions combining electric, hydraulic, and hybrid technologies with expert consultative support in a range of applications including test, simulation, plastics, metal forming, and power generation.

Moog customers include leading automotive manufacturers, aerospace manufacturers, testing labs and global automotive racing teams.

We help performance-driven companies design and develop their next-generation machines.

Moog's Industrial Group is part of Moog Inc.

For more information, please visit www.moog.com/industrial.

1 Introduction

This document covers the applicable Open Source Software licenses for Moog Valve and Pump Configurator Software.

1.1 Purpose of Use

Moog Valve and Pump Configuration Software is a Microsoft Windows®-based software that allows a user to control and exchange data between a PC and a Moog Digital Control Servo Valve and Axis Control Valve, as well as Moog Radial Piston Pumps. System parameters can be set, monitored, recorded and visualized with a flexible graphical user interface. This software is provided by Moog upon request at no charge.

1.2 Software licenses

Moog Valve and Pump Configurator Software is licensed under the General Terms and Conditions for Software License of Moog GmbH (version 11/2021) as attached hereto as Attachment 1.

Moog Valve and Pump Configurator Software may contain Open Source Software. If Moog Valve and Pump Configurator Software contains Open Source Software, Licensee will receive with regard to such Open Source Software a license in accordance with the terms and conditions applicable to it.

Other products or software (e.g. drivers) required to operate the Moog Valve and Pump Configurator software are licensed under the terms of the software license of the manufacturer of this product. Please refer directly to these licenses.

The Open Source Software that is used as part of the Moog Valve and Pump Configurator Software as well as the license terms and conditions applicable to it, are set out in the following.

You may contact Moog, if you wish to receive the source code of the Open Source Software that is part of the Moog Software licensed to you. Moog's contact details are as follows:

Web:

https://www.moogsoftwaredownload.com/contact.html

Address:

Moog GmbH

Electronic & SW

Hanns-Klemm-Strasse 28

D-71034 Boeblingen

Germany

Please state the version of this document and the request for source code of the free software parts of the Moog Valve and Pump Configurator software package within your contact information.

2 Detailed Licenses

Moog Valve and Pump Configurator Software may, but not necessarily do contain software, which is licensed under the following conditions:

Software package **Author**	**License(s)**	**Additional information / License requirements**	**Use case / linkage model**
Generic Data Storage Component for .Net	LGPL-2.1	Weak copy left. https://codeplexarchive.org/project/DataStorage Dependencies: -System.Configuration.ConfigurationManager - netcore-System.Data.Linq -System.ServiceModel.Primitives	Dynamically linked
Drag-Drop Component (with touch) for WPF	LGPL-2.1	Weak copy left. https://codeplexarchive.org/project/dragdrop	Dynamically linked
ColourSliderLibrary andywilsonuk	CPOL 1.02	http://www.codeproject.com/Articles/36802/WPF-Colour-Slider	Dynamically linked
CommunityToolkit.Mvvm Microsoft	MIT	This package includes a .NET MVVM library with helpers such as: - ObservableObject: a base class for objects implementing the INotifyPropertyChanged interface. - ObservableRecipient: a base class for observable objects with support for the IMessenger service. - ObservableValidator: a base class for objects implementing the INotifyDataErrorInfo interface. - RelayCommand: a simple delegate command implementing the ICommand interface. - AsyncRelayCommand: a delegate command supporting asynchronous operations and cancellation. - WeakReferenceMessenger: a messaging system to exchange messages through different loosely-coupled objects. - StrongReferenceMessenger: a high-performance messaging system that trades weak references for speed. - Ioc: a helper class to configure dependency injection service containers. https://www.nuget.org/packages/CommunityToolkit.Mvvm/8.4.0 https://github.com/CommunityToolkit/dotnet	NuGet package

Software package Author	License(s)	Additional information / License requirements	Use case / linkage model
Google.Protobuf	BSD 3-Clause	C# runtime library for Protocol Buffers - Google's data interchange format. https://www.nuget.org/packages/Google.Protobuf/3.33.0 https://github.com/protocolbuffers/protobuf Dependencies: -System.Memory	NuGet package
Grpc.Core The gRPC Authors	Apache License 2.0	C# implementation of gRPC based on native gRPC C-core library. https://www.nuget.org/packages/Grpc.Core/2.46.6 https://github.com/grpc/grpc Dependencies: -Grpc.Core.Api -System.Memory	NuGet package
Grpc.Tools The gRPC Authors	Apache License 2.0	gRPC and Protocol Buffer compiler for C# projects https://www.nuget.org/packages/Grpc.Tools/2.76.0 https://github.com/grpc/grpc	NuGet package
Ixxat.Vci4 HMS Networks	MIT	Use Ixxat.Vci4 package to access CAN interfaces from Ixxat/HMS Networks via .NET and VCI4-API. This package supports net40/net5.0-windows/net6.0-windows and netcoreapp3.1. Mixed assemblies depend on universal runtime (VCRUNTIME140.dll). https://www.nuget.org/packages/Ixxat.Vci4/4.1.12 https://github.com/hms-networks/ixxat-vci4-dotnet-wrapper	NuGet package
Microsoft.Extensions.DependencyInjection Microsoft	MIT	Default implementation of dependency injection for Microsoft.Extensions.DependencyInjection. https://www.nuget.org/packages/Microsoft.Extensions.DependencyInjection/9.0.10 https://dot.net Dependencies: -Microsoft.Bcl.AsyncInterfaces -Microsoft.Extensions.DependencyInjection.Abstractions -System.Threading.Tasks.Extensions	NuGet package
System.Data.SqlClient Microsoft	MIT	System.Data.SqlClient https://www.nuget.org/packages/System.Data.SqlClient/4.9.0 https://github.com/dotnet/maintenance-packages	NuGet package

Software package Author	License(s)	Additional information / License requirements	Use case / linkage model
System.Management Microsoft	MIT	Provides access to a rich set of management information and management events about the system, devices, and applications instrumented to the Windows Management Instrumentation (WMI) infrastructure. https://www.nuget.org/packages/System.Management/9.0.10 https://dotnet.microsoft.com/	NuGet package
System.ComponentModel.Annotations	MIT	Provides attributes that are used to define metadata for objects used as data sources. https://www.nuget.org/packages/System.ComponentModel.Annotations/5.0.0 https://github.com/dotnet/runtime	NuGet package

3 License texts

3.1 LGPL V2.1

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must

make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

3.2 The Code Project Open License (CPOL) 1.02

Preamble

This License governs Your use of the Work. This License is intended to allow developers to use the Source Code and Executable Files provided as part of the Work in any application in any form.
The main points subject to the terms of the License are:

- Source Code and Executable Files can be used in commercial applications;
- Source Code and Executable Files can be redistributed; and
- Source Code can be modified to create derivative works.
- No claim of suitability, guarantee, or any warranty whatsoever is provided. The software is provided "as-is".
- The Article accompanying the Work may not be distributed or republished without the Author's consent

This License is entered between You, the individual or other entity reading or otherwise making use of the Work licensed pursuant to this License and the individual or other entity which offers the Work under the terms of this License ("Author").

License

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CODE PROJECT OPEN LICENSE ("LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED.

BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HEREIN, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. THE AUTHOR GRANTS YOU THE RIGHTS CONTAINED HEREIN IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO ACCEPT AND BE BOUND BY THE TERMS OF THIS LICENSE, YOU CANNOT MAKE ANY USE OF THE WORK.

1. **Definitions.**
    a. **"Articles"** means, collectively, all articles written by Author which describes how the Source Code and Executable Files for the Work may be used by a user.
    b. **"Author"** means the individual or entity that offers the Work under the terms of this License.
    c. **"Derivative Work"** means a work based upon the Work or upon the Work and other pre-existing works.
    d. **"Executable Files"** refer to the executables, binary files, configuration and any required data files included in the Work.
    e. "**Publisher**" means the provider of the website, magazine, CD-ROM, DVD or other medium from or by which the Work is obtained by You.
    f. **"Source Code"** refers to the collection of source code and configuration files used to create the Executable Files.
    g. **"Standard Version"** refers to such a Work if it has not been modified, or has been modified in accordance with the consent of the Author, such consent being in the full discretion of the Author.
    h. **"Work"** refers to the collection of files distributed by the Publisher, including the Source Code, Executable Files, binaries, data files, documentation, whitepapers and the Articles.
    i. **"You"** is you, an individual or entity wishing to use the Work and exercise your rights under this License.
2. **Fair Use/Fair Use Rights.** Nothing in this License is intended to reduce, limit, or restrict any rights arising from fair use, fair dealing, first sale or other limitations on the exclusive rights of the copyright owner under copyright law or other applicable laws.
3. **License Grant.** Subject to the terms and conditions of this License, the Author hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:
    a. You may use the standard version of the Source Code or Executable Files in Your own applications.

b. You may apply bug fixes, portability fixes and other modifications obtained from the Public Domain or from the Author. A Work modified in such a way shall still be considered the standard version and will be subject to this License.
c. You may otherwise modify Your copy of this Work (excluding the Articles) in any way to create a Derivative Work, provided that You insert a prominent notice in each changed file stating how, when and where You changed that file.
d. You may distribute the standard version of the Executable Files and Source Code or Derivative Work in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution.
e. The Articles discussing the Work published in any form by the author may not be distributed or republished without the Author's consent. The author retains copyright to any such Articles. You may use the Executable Files and Source Code pursuant to this License but you may not repost or republish or otherwise distribute or make available the Articles, without the prior written consent of the Author.

Any subroutines or modules supplied by You and linked into the Source Code or Executable Files of this Work shall not be considered part of this Work and will not be subject to the terms of this License.

4. **Patent License.** Subject to the terms and conditions of this License, each Author hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, import, and otherwise transfer the Work.
5. **Restrictions.** The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:
    a. You agree not to remove any of the original copyright, patent, trademark, and attribution notices and associated disclaimers that may appear in the Source Code or Executable Files.
    b. You agree not to advertise or in any way imply that this Work is a product of Your own.
    c. The name of the Author may not be used to endorse or promote products derived from the Work without the prior written consent of the Author.
    d. You agree not to sell, lease, or rent any part of the Work. This does not restrict you from including the Work or any part of the Work inside a larger software distribution that itself is being sold. The Work by itself, though, cannot be sold, leased or rented.
    e. You may distribute the Executable Files and Source Code only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy of the Executable Files or Source Code You distribute and ensure that anyone receiving such Executable Files and Source Code agrees that the terms of this License apply to such Executable Files and/or Source Code. You may not offer or impose any terms on the Work that alter or restrict the terms of this License or the recipients' exercise of the rights granted hereunder. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties. You may not distribute the Executable Files or Source Code with any technological measures that control access or use of the Work in a manner inconsistent with the terms of this License.
    f. You agree not to use the Work for illegal, immoral or improper purposes, or on pages containing illegal, immoral or improper material. The Work is subject to applicable export laws. You agree to comply with all such laws and regulations that may apply to the Work after Your receipt of the Work.
6. **Representations, Warranties and Disclaimer.** THIS WORK IS PROVIDED "AS IS", "WHERE IS" AND "AS AVAILABLE", WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS OR GUARANTEES. YOU, THE USER, ASSUME ALL RISK IN ITS USE, INCLUDING COPYRIGHT INFRINGEMENT, PATENT INFRINGEMENT, SUITABILITY, ETC. AUTHOR EXPRESSLY DISCLAIMS ALL EXPRESS, IMPLIED OR STATUTORY WARRANTIES OR CONDITIONS, INCLUDING WITHOUT LIMITATION, WARRANTIES OR CONDITIONS OF MERCHANTABILITY, MERCHANTABLE QUALITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY WARRANTY OF TITLE OR NON-INFRINGEMENT, OR THAT THE WORK (OR ANY PORTION THEREOF) IS CORRECT, USEFUL, BUG-FREE OR FREE OF VIRUSES. YOU MUST PASS THIS DISCLAIMER ON WHENEVER YOU DISTRIBUTE THE WORK OR DERIVATIVE WORKS.
7. **Indemnity.** You agree to defend, indemnify and hold harmless the Author and the Publisher from and against any claims, suits, losses, damages, liabilities, costs, and expenses (including reasonable legal or attorneys' fees) resulting from or relating to any use of the Work by You.
8. **Limitation on Liability.** EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL THE AUTHOR OR THE PUBLISHER BE LIABLE TO YOU ON ANY LEGAL THEORY

FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK OR OTHERWISE, EVEN IF THE AUTHOR OR THE PUBLISHER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

9. **Termination.**
    a. This License and the rights granted hereunder will terminate automatically upon any breach by You of any term of this License. Individuals or entities who have received Derivative Works from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 6, 7, 8, 9, 10 and 11 will survive any termination of this License.
    b. If You bring a copyright, trademark, patent or any other infringement claim against any contributor over infringements You claim are made by the Work, your License from such contributor to the Work ends automatically.
    c. Subject to the above terms and conditions, this License is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, the Author reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.
10. **Publisher**. The parties hereby confirm that the Publisher shall not, under any circumstances, be responsible for and shall not have any liability in respect of the subject matter of this License. The Publisher makes no warranty whatsoever in connection with the Work and shall not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. The Publisher reserves the right to cease making the Work available to You at any time without notice
11. **Miscellaneous**
    a. This License shall be governed by the laws of the location of the head office of the Author or if the Author is an individual, the laws of location of the principal place of residence of the Author.
    b. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this License, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.
    c. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

This License constitutes the entire agreement between the parties with respect to the Work licensed herein. There are no understandings, agreements or representations with respect to the Work not specified herein. The Author shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Author and You.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution

incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

4 Attachment 1

4.1 General Terms and Conditions for Software License (as of 11/2021)

MOOG GmbH, Hanns-Klemm-Straße 28, 71034 Böblingen

§ 1 Scope of these General Terms and Conditions for Software License

(1) MOOG GmbH, Hanns-Klemm-Straße 28, 71034 Böblingen ("Licensor") has agreed with the user of the Licensed Product ("Licensee") to grant Licensee a license to use and exploit the Moog software („Licensed Product") subject to the terms and conditions of these General Terms and Conditions for Software Licence („Terms and Conditions").

(2) The Licensed Product comprises the object code of the software and, if agreed upon, of any documentation.

§ 2 Grant of Rights

(1) Licensor hereby grants to Licensee, if the Parties did not agree otherwise, the non-exclusive, non-transferable right to use, copy, revise and decompile the Licensed Product without limitation in time and territory for Licensee's business purposes subject to the terms of these Terms and Conditions.

(2) If the Licensed Product is integrated in a product of the Licensor (e.g. valve) that is supposed to be sold by Licensee to an end-user as agreed between the Parties ("Contractual Product"), the Licensor grants, in deviation of paragraph 1, Licensee a right to sublicense the Licensed Product subject to the terms of these Terms and Conditions. In the case of sublicensing, Licensee will remain fully responsible towards Licensor for compliance with and any breach of these Terms and Conditions by the end-user.

(3) If the Licensed Product is a software module, meaning a distinct software library that bundles a specific set of functionalities, which is supposed to be integrated by Licensee in Licensee's proprietary software application, the Licensor grants, in deviation of paragraph 1, Licensee a right to sublicense the Licensed Product subject to the terms of these Terms and Conditions. In the case of sublicensing, Licensee will remain fully responsible towards Licensor for compliance with and any breach of these Terms and Conditions by the end-user.

(4) The right to use and exploit is limited to the agreed purpose of use („Purpose of Use"). If the Licensed Product is integrated in a Contractual Product, the Purpose of Use is the designated operation of the Contractual Product.

(5) The right to copy the Licensed Product granted to Licensee herein is limited to (i) the installation of the Licensed Product on a computer system which is in Licensee's immediate possession and (ii) to fulfill the Purpose of Use and (iii) a copy thereof which is required for the loading, display, running, transfer or storage of the Licensed Product as well as to the right for an authorized person to make a copy for security backup purposes, as stated in Section 69 d para. (2) German Copyright Act (Urhebergesetz – "UrhG").

(6) If the Licensed Product is integrated to the Contractual Product, the following applies in deviation of paragraph 5: The right to copy the Licensed Product granted to Licensee herein is limited to a copy thereof which is required for the loading, display, running, transfer or storage of the Licensed Product for the purpose of operating the Contractual Product.

(7) The right to decompile the Licensed Product granted to Licensee herein is only granted under the terms of Section 69 e para. (1) nos. 1 to 3 UrhG and within the limits of Section 69 e para. (2) nos. 1 to 3 UrhG.

(8) Notwithstanding the provisions of subsections 1 - 6, Licensee shall, for any Licensed Product, if and as far as it includes Open Source Software, receive licenses in accordance with the license terms applicable to such software. Both Parties agree to comply with such license terms. The Open Source Software that is part of the Licensed Product as well as the terms and conditions of such Open Source Software will be conveyed to the Licensee upon request, or made available, if this is necessary according to the applicable license terms.

(9) Further rights to use and exploit the Licensed Products are not granted to Licensee.

(10) Licensee undertakes to allow Licensor or an agent of Licensor to audit whether Licensee's use of the Licensed Product is consistent with the rights granted to Licensee herein upon request by Licensor and provided there is a legitimate interest therein and to give full co-operation to Licensor or its agent carrying out such audit.

§ 3 Delivery and Installation of Licensed Product

(1) Licensor shall deliver the necessary number of copies of the Licensed Product for the exercise of the rights to use and exploit granted to Licensee herein either together with the Contractual Product as integral part of the Contractual Product or, if the Licensed Product is not integrated in the Contractual Product, in machine readable form (at Licensor's option) either stored on a type of data storage media in common use at the time or transferred by remote data transfer.

(2) Licensee shall receive any agreed software documentation as electronic document (at Licensor's option) either stored on a type of data storage or transferred by remote data transfer in English or German.

(3) The Parties agree Licensor's registered office as the place of performance for the delivery of the Licensed Product. Licensee shall bear all costs and risks related to such delivery. Upon transfer of the Licensed Product, the risk of transportation (particularly the risk of accidental loss or destruction) of the copies of the Licensed Product passes to Licensee.

(4) Licensee is responsible for providing the system environment in accordance with the system requirements for the Licensed Product.

(5) The Licensed Product shall be installed by Licensee, if the Licensed Product is not already integrated in the Contractual Product at the time of delivery. In this case, Licensee must notify Licensor, upon request of Licensor, of the respective installation locations of the copies of the Licensed Product. This shall also apply to any later change of installation locations.

(6) All copies of the Licensed Product shall remain in the sole ownership of Licensor until the complete payment of the license fees.

§ 4 License Fees

(1) If the Licensed Product is delivered as integral part of the Contractual Product, the license fee is generally compensated with the payment of the Contractual Product. This does not apply, if the purchase order confirmation stipulates that the Licensed Product needs to be activated at a charge by means of a license key.

(2) If the Licensed Product is offered, at a charge, on a data medium or, at a charge, per remote data transmission, the license fee will be set out in the purchase order confirmation.

(3) If the Licensed Product is explicitly offered “free of charge” (e.g. configuration software that is offered free of charge per remote data transmission), the grant of rights for the Licensed Product under these Terms and Conditions shall be free of charge.

(4) The commercial payment terms of the General Terms and Conditions of Sale and Delivery of Licensor apply, if the Parties did not agree otherwise.

§ 5 Machinery Directive 2006/42/EC and necessary security measures

(1) Licensed Product does fulfill the requirements of the Machinery Directive 2006/42/EC, in particular with regard to the functional security, only then, if it is appropriately marked and is delivered with the appropriate additional documentation for the intended use, and is delivered with the necessary certificates.

(2) The Licensee carries the sole responsibility with regard to the fulfilment of the Directive mentioned in paragraph 1, in particular in cases in which the Licensed Product is used within the scope of the Machinery Directive.

(3) The Licensee carries the sole responsibility to secure the Licensed Product against third-party attacks, e.g. viruses, hacker attacks and the like.

(4) The Licensee has the obligation to secure its IT-infrastructure, in particular applications relevant to security, with suitable measures in a redundant way to prevent any data loss resulting out of the use of Licensed Product.

§ 6 Rights in Case of Defects, if Licensed Product is offered free of charge

(1) In case the Licensed Product is offered free of charge, the rights of the Licensee in case of defects shall be limited to the rights as set out in Section 523 and 524 BGB.

§ 7 Rights in Case of Defects, if Licensed Product is offered at a charge

(1) The Licensed Product provided by Licensor shall be substantially in accordance with the product description. Warranty rights in case of defects shall be excluded in case of minor or immaterial deviations from the agreed or assumed characteristics as well as in the case of just slight impairment of use.

(2) In respect of updates, upgrades and the delivery of new versions, Licensee’s warranty rights in case of defects shall be limited to the new features of the update, upgrade or new version compared to the previous version release.

(3) The Licensor may remedy any product defects by methods and means of its own choice. Remedies also include any reasonable workarounds made available by Licensor to Licensee. The Licensor may also demand that Licensee shall install "bug fixes" in any software components made available to Licensee. Licensor may at its reasonable discretion determine the time for remedying any product defects.

(4) If Licensor's final attempt to remedy a product defect has failed, Licensee may demand a reduction in the price of the defective software or rescind the agreement. Whether the final attempt to remedy a product defect has failed shall be determined in consideration of the complexity of the problem and surrounding circumstances, it being agreed and understood that two failed attempts shall not be sufficient to constitute a “failed attempt” by Licensor. Any right of Licensee to remedy product defects independently or with the assistance of third parties is hereby excluded. Licensee shall have no claims for damages against Licensor except as provided in Section 7 below.

(5) Licensee shall provide Licensor with written notice of any product defects promptly upon discovery, enclosing therewith a detailed description of the defects. Any obligations of Licensee to provide notice of product defects under applicable commercial law shall remain unaffected hereby

(6) Any claims based upon product defects are time-barred twelve (12) months after making available the Licensed Product, unless Licensor has fraudulently concealed a product defect. The statutory limitation period for any damage claims by Licensee due to product defects remains unaffected.

(7) Any claims for damages are subject to the limitations set forth under Section 7.

(8) If the defect is caused by the defective products of a supplier and the supplier does not act as an assistant in performance of Licensor, rather Licensor is merely passing on a third party product to Licensee, then Licensee’s rights in case of defects shall at first hand be limited to the assignment of Licensor’s rights in case of defects against its supplier. This shall not apply, when the defect is caused by improper handling of the supplier’s product for which Licensor is responsible. If Licensee is unable to assert his rights in case of defects against the supplier out of court, Licensor’s subsidiary

liability for Licensee's rights in case of defects shall remain unaffected.

(9) Amendments or additions to the services or items delivered which Licensee carries out itself or through third parties, shall cause Licensee's rights in case of defects to be cancelled, unless Licensee proves that the amendment or addition did not cause the defect. Licensor shall also not be responsible for defects, which are caused by improper use or improper operation or the use of unsuitable means of operation by Licensee.

(10) Licensor may refuse to remedy defects or deliver replacements, until Licensee has paid the agreed fees to Licensor, less an amount which corresponds to the economic value of the defect.

(11) Product descriptions shall not be deemed guaranteed unless separately agreed in writing.

§ 8 Rights in Case of Defects in Title, if Licensed Product is offered at a charge

(1) The Licensor warrants that the Licensed Product shall not infringe any third-party rights, if used as agreed and in accordance herewith. Licensor shall not be liable under this warranty unless Licensee provides Licensor with prompt written notice of any third-party claims and allows Licensor to defend such claims and entertain settlement negotiations, if and as far as legally possible. The Licensee shall, to a reasonable extent and at no cost to Licensor, assist Licensor with the defense of any third-party claims, in particular by making available all necessary information. Any obligations of Licensee to provide notice of product defects under applicable commercial law shall remain unaffected hereby.

(2) Rights within the meaning of this Section shall only refer to rights held by third parties in the Federal Republic of Germany.

(3) If third-party rights impair the agreed use of Licensed Product by Licensee, Licensor may, at its sole option, either modify the Licensed Product such that it no longer infringes the third-party rights, or, in the alternative, acquire the legal rights necessary for use of the Licensed Product. Any right of Licensee to modify the Licensed Product independently or with the assistance of third parties is hereby excluded.

(4) Licensee shall have no claims for damages against Licensor, except as provided in Section 7.

(5) Licensee shall have no claims based upon any defects in title, if Licensed Product has been modified by Licensee or any third parties, unless Licensee can show that the infringement did not result from modification of the Licensed Product. Licensee further shall have no claims based upon any defects in title, if infringement results from any combination of the Licensed Product of Licensor with products or services of any third parties other than subcontractors of Licensor.

(6) Any claims of Licensee based upon defects in title to the Licensed Product are time-barred 12 months after the Licensed Product was made available to Licensee, unless Licensee has fraudulently concealed a defect in title; the statutory limitation period for damage claims resulting out of defects in title remains applicable.

§ 9 Liability

(1) Licensor is subject to unlimited liability for any damages caused by grossly negligent or willful misconduct of Licensor or its legal representatives or agents, or resulting from any wrongful harm to life, limb or health.

(2) Licensor assumes liability for any damages caused by ordinary negligence if, and solely to the extent, Licensor breaches any material obligation under the agreement jeopardizing achievement of the purpose of the agreement and if Licensee placed particular reliance upon performance of such obligation. In such cases, Licensor's liability shall be limited to damages reasonably foreseeable at the time the agreement was signed. Sentence 1 does not apply, if the grant of rights with regard to the Licensed Product is free of charge; in such case liability for ordinary negligence is excluded.

(3) The foregoing limitations of liability shall also inure to the benefit of the Licensor's legal representatives and employees, and shall also apply in cases involving liability for culpa in contrahendo or torts.

(4) Any liability of Licensor for damages under the German Product Liability Act shall remain unaffected hereby.

(5) Any liability of the Licensor for lost data shall be limited to compensatory damages in the amount necessary for restoration of the data using electronic backup media. The obligation of Licensee to back-up data on a regular basis according to the state of the art shall remain unaffected thereby.

(6) Unless provided otherwise in these Terms and Conditions, any and all claims of Licensee against Licensor shall be subject to a limitation period of one year from the date of accrual and the date on which Licensee discovered or, absent recklessness on the part of Licensee, would have discovered the circumstances giving rise to the claim, except for claims defined in subsections (1), (2), or (4).

§ 10 Export Control

(1) The Licensee shall, in relation to the Licensed Product, comply with all export control laws and regulations of the European Union, the United States of America and any other countries which are relevant for Licensee.

(2) The Licensee shall not sub-contract or assign the benefit of the Licensed Product, export, sell or otherwise transfer the Licensed Product to any entity based in any state that appears on restricted lists published by the states listed in paragraph 1. The same applies to individuals that are listed on any restricted list.

§ 11 Consequences of a contractual breach by Licensee

(1) Upon breach of contract by Licensee, in particular if Licensee oversteps its license rights granted under this agreement, in case of default of payment or breach of the export control clause, Licensor shall be entitled to terminate this agreement for cause without notice, and require at Licensee's expense the return of all copies of the Licensed Product in which Licensor has retained ownership, or if applicable, to demand the assignment of Licensee's right of return against third parties.

(2) In such case, upon Licensor’s request, Licensee shall confirm in writing that no copies of the Licensed Product of copies thereof were retained and that all installations of the Licensed Product have been irrevocably deleted from Licensee’s or third party’s systems. Before the unconditional transfer of ownership, Licensee shall only dispose of rights in the Licensed Product with the written consent of Licensor.

§ 12 Final Provisions

(1) Amendments or additions to these Terms and Conditions must be made in writing to be effective. This shall also apply to amendments of this written form requirement.

(2) These Terms and Conditions shall be governed by the laws of the Federal Republic of Germany except for the UN Sales Convention (United Nations Convention on Contracts for the International Sale of Goods dated 11.4.1980).

(3) The courts for Licensor’s registered office shall have exclusive jurisdiction over all disputes under and in connection with these Terms and Conditions, provided that Licensee is a merchant within the meaning of the German Commercial Code or if upon the commencement of legal proceedings, Licensee has no place of business or ordinary residence in the Federal Republic of Germany.

(4) Should any provision of these Terms and Conditions be or become invalid, this shall not affect the validity of the remaining terms. The Parties shall in such an event be obliged to cooperate in the creation of terms which achieve such legally valid result as comes closest commercially to that of the invalid provision. The above shall apply accordingly to the closing of any gaps in these Terms and Conditions.

(5) In case of conflict between the German and the English version of these Terms and Conditions, the German version shall prevail.

MORE PRODUCTS. MORE SUPPORT.

Moog designs a range of motion control products to complement those featured in this document. Moog also provides service and support for all of our products. For more information, contact the Moog facility closest to you.
